### Bosco Buys a Motorcycle (BN Primary English Pupil's Book Five page 40 – 42)

Bosco was a very happy man when he bought a motorcycle. It was a second hand motorcycle but this did not bother Bosco anyhow because he knew very well that aroung his home area, Rwashamire, there were very many mechanics who could help him repair his motorcycle once it broke down.

One Saturday morning, Bosco wanted to travel to his grandfather's home area in Kyamakanda Village which is about forty kilometres from Ntungamo Town. He feared to travel alone because of the many iron bar hit men known in that area. He asked his brother, Mwebesa to accompany him. He kick started the motorcycle and they rode off. The speed picked faster and faster, overtaking every vehicle that they met on the road. Meanwhile, Mwebesa became worried and reminded Bosco about the

dangers of speeding one of which he said, was rolling over in case of sudden braking or after knocking something. "You should not ride so fast. It is not safe with such an old motorcycle like this one." Said Mwebesa. Boscoturned a deaf ear. Instead, he answered, "This is not my first time to ride first, may be it your first time to sit on a motorcycle." As soon as Bosco said this, they heard a funny noise from the motorcycle. The chain had certainly gone off the chain wheel. Mwebesa looked at his brother and said, "You didn't pay attention to my advice, you see what I told you!" Luckily, there was garage one kilometer ahead. Bosco and Mwebesa pushed the motorcycle up to the garage. The mechanic at the garage asked, "What has happened to your motorcycle?" Bosco answered, "First, there was a funny noise, then the motorcycle stopped moving. I do not know what the problem is." The mechanic put back the chain on to the chain wheel and told Bosco that this problem is sometimes brought by speeding especially in very old motorcycles like his. He advised him to ride more carefully and responsibly.

### Ssenyonga's Second Hand Vehicle (MK Primary English Pupil's Book Five page 13-14)

Ssenyonga was overjoyed when he bought a car. Although it was old, he liked it very much. He knew that there were a number of good mechanics around who could help him repair his car in case it broke down.

One day, Ssenyonga wanted to travel to his home area, Kabwohe. KabwoheVillage is about twenty kilometers away from MbararaTown. He did not want to travel alone. He asked his friend, Waboineki, to accompany him. Ssenyonga started the car engine. They drove off. The car picked faster and faster. He started overtaking other cars. Waboineki got worried and reminded Ssenyonga about the dangers of driving at such a high speed. "You should not drive so fast, It is not safe with an old car like this one," said Waboineki. Ssenyonga did not pay attention. Instead, he answered, "This is not my first time to drive. May be it is your first time to travel by car."

No sooner had Ssenyonga said this than they started hearing a funny noise from the engine. The car certainly had a mechanical problem. Waboineki looked at his friend and said, "You didn't pay attention to my advice, you see what I told you." Luckily, a breakdown vehicle came from the opposite direction. The driver of the breakdown got out and asked, "What happened to your car?" Ssenyonga answered, "First, there was a funny noise, then the engine just stopped all of a sudden. I do not know what the matter is." The breakdown towed Ssenyonga's car to a nearby garage. The mechanic repaired the vehicle and told Ssenyonga that travelling at a high speed, especially in an old car is not safe. He advised him to drive more carefully.

#### **EQUIPMENT USED IN VEHICLE REPAIR**

#### **Conditional sentences**

#### The use of IF1.

It is used when we want to say that something is going to happen if a certain condition is fulfilled.

#### **Examples**

- 1. I will go to Kampala if I get time. OR If I get time I will go to town.
- 2. If he doesn't hurry, I will leave him. OR I will leave him if he doesn't hurry.

We normally use a future simple tense in the Main Clause and a present tense in the IF Clause. However, we don't use a future tense after if.

When the IF Clause comes first, it is followed by a comma. If the main Clause comes first, no comma is required.

#### **NOTE**

(a) If I get time, I will visit my uncle's garage.

If clause main clause

- (b) <u>I will visit my uncle's garage if I get time</u>

  Main clause if clause
- (c) In part (a) above, a comma is very important whereas in part (b) no comma is needed.

Jordan took his car to the garage for repair. Below is the conversation he had with the mechanic. Read it and in full sentences, answer the questions about it.

**Mechanic:** Good morning, Sir.

<u>Jordan</u>: Good morning, Madam. <u>Mechanic</u>: How can I help you?

Jordan: My car has got a problem.

**Mechanic:** Which problem has your car got?

**Jordan:** My car brakes are working well.

Mechanic: For how long have your car brakes not been working?

**Jordan:** My car brakes have not been working for three days now. Mechanic: Three days! Why have you taken long to bring it? **Jordan:** I did not have money to bring it early enough. Mechanic: Even if you didn't have money, you should have brought itand plan to pay later. **Jordan:** So, how much are you going to charge me to fix the brakes? **Mechanic:** I am going to charge you fifty thousand shillings to fix thebrakes. **Jordan:** That sounds rather high! Can't you reduce it for me? **Mechanic:** No, I can't reduce for you because fixing brakes takes a lot of time. **Jordan:** Will you also consider checking for any other faults? **Mechanic:** Yes, I will also check for any other fault but you should always bring this car for servicing. Jordan: How often should I bring it for servicing? **Mechanic:** You should bring it for servicing at least three times a month. Jordan: I don't have any cash at hand unfortunately, can I send you the money via mobile money? **Mechanic:** Yes, you can send me the money via mobile money on 0773 919092. I have received it, thank you very much. Jordan: You are welcome. Questions: What is the dialogue about? 1. How many people are taking part in the dialogue? 2.

#### **Dialogue**

One day, Tom went to the garage with his mother. Below is a dialogue between Tom and the mechanic at the garage. Read it carefully and answer the questions in full sentences.

**Tom**: Good morning, sir,

**Mechanic**: Good morning Tom

**Tom**: You are a mechanic and you repair vehicles. Do you enjoy your job?

Mechanic: Yes, I enjoy my job because I get a lot of money from it

<u>Tom</u>: But it makes your clothes dirty. Is there a way you can keep yourself clean in the garage?

**Mechanic:** No, old vehicles have dirty, black oil and grease which make me look dirty all the time in the garage.

**Tom:** I see! Now, you have many tools like spanners, pliers and hammers. How do you keep them?

Mechanic: I keep all these tools in a tool box after cleaning them.

**Tom**: By the way, why do old cars cause accidents?

<u>Mechanic:</u> Old cars have a lot of mechanical problems. For example when I repair the engine, the battery may fail to work. And when the battery is put right, the car may need wheel alignment.

**Tom:** Is it okay to scrap all old cars off the roads especially here in the city?

<u>Mechanic</u>: No, I don't think so because I will not get vehicles to repair. How else will I earn a living?

**Tom:** But sir, even new cars have challenges which you can take care of and earn a living.

<u>Mechanic:</u> My dear son, these new cars are not my daily customers. Their problems are minor and may not necessarily need a mechanic.

<u>Tom:</u> But you can create a washing bay and a private parking yard with maximum security and there you can earn a lot of money.

<u>Mechanic</u>: I think you are an intelligent boy. You have very wonderful ideas. May the Good Lord bless you.
