SECTION B

51. Read the passage and answer questions.

Every person must have a way for good air to get in and bad air to go out. In old homes there were no windows because many people still build their houses with only a door and at night they sleep with a blanket over their heads. Every room should have a window which can be opened and shut because air is needed. These windows can be made of woods, reeds and glass. It still costs much money for glass but these are the best because they let in sunlight as well as air.

Questions

a) What is the passage about?

b) What must every house have?

c) Why didn't most houses have no windows?

d) What should be put on every room?

e) In which material should windows be made from?

f) What is the best type of window to be put on the house?

g) Name two other materials apart from glass on the house?

i. _____

ii. _____

h) Name two other materials apart from glass which is used to make windows.

i. _____
