.....

b) Mention one common pest to his maize fruit in the garden.

.....

c) What advise would you give to Otukol to control the pest in (b) above?

.....

d) Why would you encourage Otukol to introduce bee keeping in his maize farm?

.....

50. **Match the disease in A to the body organ that they affect in B below.**

Diseases (A)

Body organ (B)

Trachoma

Lungs

Tuberculosis

Eyes

Peptic ulcers

Brain

Meningitis

Stomach

Trachoma:

Tuberculosis:

Peptic ulcers:

Meningitis:

51. a) Which type of immunity is got;

i) after suffering and recovering from a disease without treatment?

.....

ii) after being immunized?

.....

b) Of what importance is immunity to the body?

.....

c) Why is polio vaccine administered to babies?

.....

52. a) Explain the meaning of the term harvesting honey?

.....

b) Give two equipment that a bee keeper needs when harvesting honey from a hive.

i) ii)

c) Write one advantage of modern bee hive over a traditional bee hive.

53. **The table below shows different food staffs eaten in different four families. Study it and answer the questions that follow.**

Family	Chicken	Maize	Cabbage	Fruit
A	x	√	√	x
B	√	√	√	√
C	√	√	√	x
D	x	√	x	√

☒ Included in the diet ☐ Not included in the diet.

a) Which food staff is eaten by all families?

c) Identify the families that feeds its members on proteins.

d) Which type of proteins is included in the table?

d) Which family is likely to have cases of constipation?

54. a) Briefly explain the following terms.

i) Solute.

ii) Solvent.

b) Give one example of a solute.

c) Why is water called a universal solvent?

55. a) Decomposition is one of the method in soil formation. Point out one organism that help in decomposition of matter.

b) Which component of soil is formed in (a) above?

c) How is the component of soil mentioned in (b) above important to crops?

d) Why would you encourage farmers to maintain plant growth on their gardens?
