    _____

    _____

50. All the candidates in our class have not registered for P.L.E. (Begin: None……….)

    _____

    _____

SECTION B

51. Pendi Jamal is a pupil of Hillside P/S Nyondo Sub – Country, Manafa.

    Below is a diary he recorded in one month. Study it carefully, and in full

    sentences, answer the questions that follow.

Sun.		visited my 7 uncle in Mpigi	14	21	went to 28 St Paul's Church
Mon.	1	8	15	22	29
Tue.	2	9	16	Maria 23 replied to my letter	
Wed.	wrote to 3 my pen-pal	10	17	Revised 24 English/ sat a test	
Thur.	4	my 11 birthday in Mpigi	18	attended 25 my cousin's burial	
Fri.	posted 5 letter to Maria	12	19	26	
Sat ·	6	left Mpigi 13 for Mbarara	20	27	

Questions

(a) Whose diary was it?

_____

(b)   On which day did the month begin?

_____

(c)   Which month is shown in this diary?

_____

(d)   When did Pendi Jamal bury his cousin?

_____

(e)   What did Jamal do on the 5th of the month?

_____

(f)   Why do you think Pendi Jamal went to All Saints Church Nyondo?

_____

(g)   How many events did Pendi Jamal record in the third week?

_____

(h)   To whom did Pendi Jamal post the letter?

_____

_____

(i)   Where did Pendi Jamal celebrate his birthday?

_____

_____

(j)   What else did Pendi do on the 24th apart from revising English?

_____

_____

52.   Read the passage below carefully and, in full sentences, answer the questions about it.

SAFETY OF OUR CHILDREN

Last month, ten – year – old Achar Lucia, a primary five pupil of Biira Primary School, did not return home after school. Her body was later found lying in a pool of blood in a bush.

The police say that she could have been kidnapped, raped and later killed by evil people.

I, therefore, advise my fellow pupils to take the following persecutions; use the safest routes to school and back home, walk in groups do not walk alone and refuse gifts from strangers. Know your parents' names, phone numbers, home

address and where they work and before leaving home, inform your parents where you are going.

I also advise all schools to take care of their pupils, until they are handed over to their parents. The schools should also have a book or a form which is signed by the person who receives the child. All the above will promote the safety of children in schools and at home.

Questions

(a)   How old was Lucia?

_____

_____

(b)   In which school was Achar Lucia?

_____

_____

(c)   Why didn't Achor Lucia return home?

_____

_____

(d)   Who kidnapped and killed Achor Lucia?

_____

_____

(e)   What should the children do before leaving home?

_____

_____

(f)   Where was the deceased's body found lying?

_____

_____

(g)   In which class do you think, Lucia will be next year?

_____

_____

(h)   Write a word with the same meaning as the underlined words in the passage.

(i)   found _____

(ii)   precautions _____

(i)   What is the title of the passage?

_____

_____

53. Below is an advertisement that was pinned at the reception of Mt. Elgon Hotel, Mbale District. Read it carefully and, in full sentences, answer the questions about it.

> The Management of this hotel invites applications from qualified Ugandans to <u>fill</u> the following <u>positions</u>:
> chiefs   2
> Waitresses   7
> Waiters   3
> Cashiers   2
>
> The applicants should be 18 – 23 years old. The applications should reach the Public Relations Officer not later than 1st March, 2017.
>   Lameck Obbo
>   (PRO)
>   25/ 2/ 2017

Questions

(a) Where was the advertisement hung?

_____

(b) Who invited the applications?

_____

(c) How many chefs are needed at the hotel?

_____

(d) In which district is the hotel found?

_____

(e) To whom should the applications be addressed?

_____

(f) Who wrote the advertisement above?

_____

(g) When should the applications reach the Public Relations officer?

_____

(h) Write in full. Mt.

_____

(i) Write a word or group of words with the same meaning as the underlined words in the advertisement.

(i) fill _____

(ii) positions _____

8

54. <u>Below is the dialogue between Tendo and Suubi. Complete it with the missing responses.</u>

Tendo: Good afternoon, Suubi.

Suubi: _____

                _____

Tendo: Where were you last holidays?

Suubi: _____

                _____

Tendo: What were you doing in Gabon?

Suubi: _____

                _____

Tendo: Watching AFCON! What is it?

Suubi: _____

                _____

Tendo: Oh! African Cup of Nations! Are you a very good fun of football?

Suubi: _____

                _____

Tendo: Which match did you watch last in Gabon?

Suubi: _____

                _____

Tendo: By how many goals did Egypt beat Uganda Cranes?

Suubi: _____

                _____

Tendo: One goal to zero is a very bad result! Were you happy with the way our team played?

Mother Kevin Memorial Primary School Nsambya
P. 7 Term I Revision Test 2020 (Set V)
Mathematics.
Time allowed: 2 hours and 30 minutes

Name: _____ Stream: _____

<u>SECTION A (40 marks)</u>

1.   Work out: 3 x 32

2.   Write 55,080 in words.

3.   Simplify: $^+7 - {}^-2$

4.   Solve: $\frac{1}{9} n^2 = 4$

5.   Work out: $1\frac{1}{3} - \frac{3}{4}$

6.   Given that set P = {2, 3, 5, 7, 13}, find the number of subsets in set P.

7.   A school bag contains 9 black and 8 green pens. Find the probability of picking a black pen at random from the bag.

8.   In the diagram below, find the value of k.
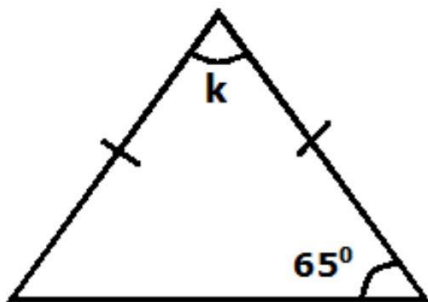

9.   A film which took 1 ½ hours ended at 5:25 p.m. What time did it start?

10.   Find the least common multiple (L.C.M) of 12 , 16 and 20.

11. Express 18 as a percentage of 30.

12. Using a pair of compasses, a ruler and a pencil only, construct an angle of 120° in the space provided below.

13. Write the number whose standard form is 6.07×10^3.

14. In a class of 50 pupils, there are 35 boys. What is the ratio of boys to girls in its simplest form?

15. Chebet sold a radio at Sh. 345,000. If she made a profit of Sh. 42,500, at what price did she buy the radio?

16. The perimeter of a square flower garden is 64m. Find the length of one side of the garden.

17. Kamagu bought 3 ¾ Kg of meat. How many grams of meat did he buy?

18. Change 11011_{two} to base ten.

19. In an English test, pupils scored as follows: 56 , 49 , 51 , 77 , 68 , 71. Find the range.

20.	A car covered a distance of 150km in 2 hours 30 minutes. What was its average speed?

21.	At a party attended by 60 pupils, 42 ate Chicken (C), (k + 8) ate Meat (M) only, k pupils ate both chicken and meat while 6 did not eat any of the two items.

(a)	Use the information given above to complete the Venn diagram below. (2 marks)

$$n(\xi) = 60$$
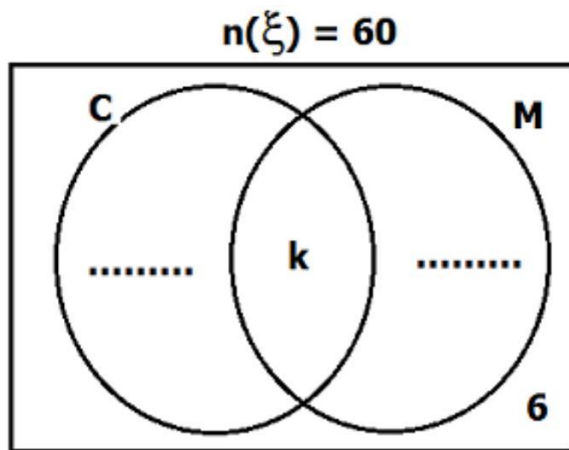

(b)	Find the value of k.	(2 marks)

(c)	If a pupil is picked at random, what is the probability that the pupil ate meat?	(2 marks)

22(a) Use the distributive property to simplify: (306 x 89) + (111 x 306)   (2 marks)

(b)   Find the value of $7^3 - 4^2$.   (2marks)

23.   Munene bought the following items from a shop.

       2 loaves of bread at sh. 3,800 per loaf

       3 ½ Kg of sugar at sh. 3,600 per Kg

       4 litres of milk at Sh. 800 per ½ litre

(a)   What was his total expenditure?   (4 marks)

(b)   If he had Sh. 30,000, what was his change?   (1 mark)

24(a) Work out: $\dfrac{31.7 - 24.5}{0.18}$ (3 marks)

(b)   Simplify: $3\,{}^3/_5 \div 2\,\frac{1}{4} \times 2\,{}^5/_8$ (3 marks)

25(a) Using a pair of compasses, a ruler and a pencil only, construct a triangle PQR in which PQ = 6cm, angle RPQ = 60° and angle PQR = 45°.

(a)   Construct a perpendicular from R to meet PQ at Y.   (5 marks)

(b)   Measure RY.   (1 mark)

26(a) Given that a = 2, b = 5 and c = ⁻3, evaluate $\dfrac{5a - 2bc}{b}$ (2 marks)

(b)   Solve: 3(p − 2) + 2(p − 5) = ⁻21   (3 marks)

27.   The mean of the numbers 13 , 16 , 20 , g , 14 and 21 is 17.

(a)   Find the value of g.   (3 marks)

(b)   Calculate the median of the number.   (2 marks)

28(a) Write 519 in Roman numerals.   (2 marks)

(b)   What is the place value of digit 7 in the number 5, 786,024?   (1 mark)

29.   Study the figure below and use it to answer the questions that follow.
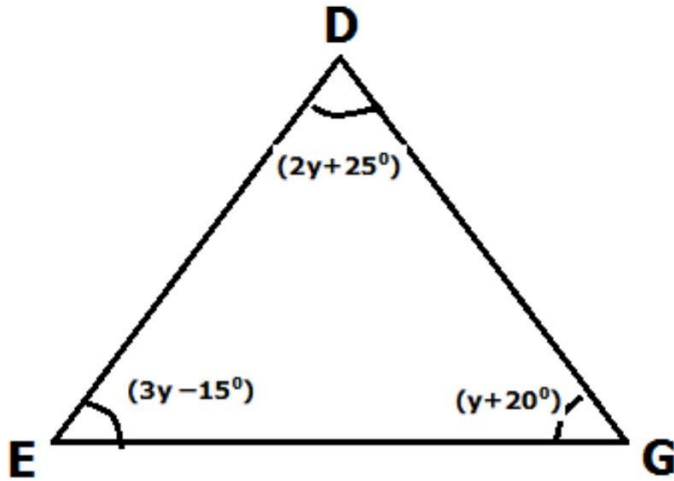

(a)   Find the value of y.   (3 marks)

(b)   Calculate the size of angle DEG.   (1 mark)

30. Aminah spends $^2/_3$ of her salary on food and $^3/_5$ of the remainder on rent. She saves the rest, which is Sh. 60,000.

(a) What fraction of her salary does she save? (3 marks)

(b) What is her salary? (2 marks)

31. The pie chart below shows how Muhindo spends his monthly salary. Study it carefully and answer the questions that follow.

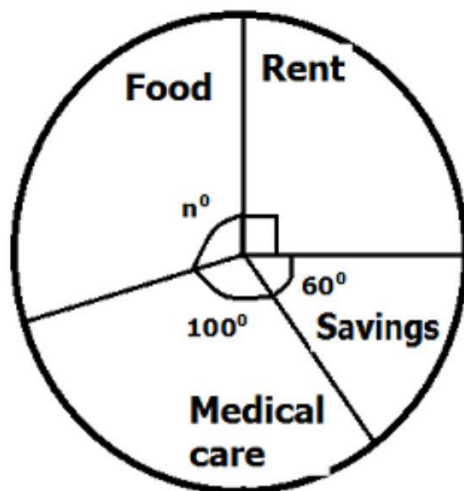

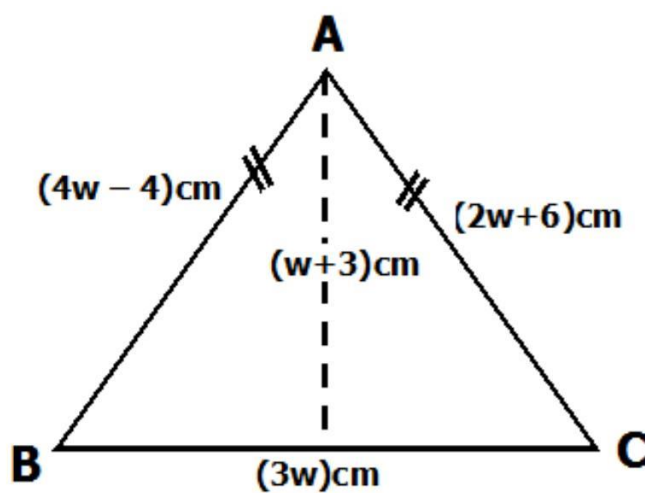

(a) Find the value of n. (2 marks)

(b) If he spends Sh. 220000 on food, what is his salary? (2 marks)

(c) What percentage of his salary does he save? (2 marks)

32. The figure ABC below in an isosceles triangle. Study it carefully and answer the questions that follow.

(a) Find the value of w. (2 marks)

(b) Work out the area o triangle ABC. (3 marks)

SECTION A (40 marks)

1.   Name one living component of soil.

_____

2.   Besides water and soap, name one other material we use to clean our body.

_____

3.   How is litter useful in a poultry house?

_____

4.   How is the sound produced by a teacher reach the children attending to the lesson?

_____

5.   Give one source of current electricity.

_____

The diagram below indicates changes in states of matter. Use it to answer question 6.

6.   Identify the state of matter represented by letter R.

_____

7.   Give one reason for keeping a dog at home.

_____

8.   How is water useful during seed germination?

_____

9.   Which class of food is first digested in the duodenum?

_____

10. How does the use of electricity help to conserve forests?

_____

11. Give the function of the vertebral column in the body.

_____

12. One of the PIASCY messages is "SAY NO TO SEX". State the importance of such a message to a P.7 child.

_____

Below is a diagram of a garden tool. Use it to answer question 13.

13. Name the garden tool shown in the diagram above.

_____

14. Why does an iron knife develop a brown coating when left outside at night?

_____

15. Write the organism used to rais dough in a bakery.

_____

16. What body organ filters blood?

_____

17. How are clouds formed during rain formation?

_____

18. Name the diseases spread by a fresh water snail to man.

_____

19. Convert 35^oC to ^oF.

_____

20. State a bad practice among poultry that leaves egg shells in the poultry home.

_____

21. Why is light energy similar to sound energy?

_____

22. How is weather forecast useful to Mr. Ogwal who is intending to grow tomatoes?

_____

23. Why is it important to protect water sources in the community?

_____

24. Aputi accidentally poured cooking oil in water. State the best method she can use to obtain her cooling oil.

   _____

25. One of the common intestinal worms is tape worm. How can a person be infested with it?

   _____

26. Isaac boiled water and put it in a fridge to cool. After sometime, it got frozen. State what happened to its volume.

   _____

27. How can a farmer who rears zebu animals improve on their milk yield?

   _____

28. Give one factor that can lead to low crop yield besides pests and diseases.

   _____

29. How are merino sheep important to a textile industry?

   _____

30. Give the role of the placenta during pregnancy.

   _____

   The diagram below is of a hive. Study it and use it to answer questions about it.

31. Name the type of hive shown.

   _____

32. How does rabbit keeping benefit a crop farmer?

   _____

33. Give the function of molar teeth during digestion.

   _____

34. Why are families encouraged to have a latrine?

   _____

35. What role is played by spiracles on the body of a cockroach?

   _____

36. Name one natural birth control methods.

_____

37. State one danger of using fossil fuels in the environment.

_____

The diagram shows part of a flower. Use it to answer question 38.
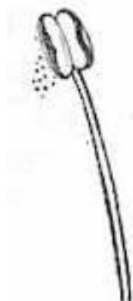

38. Name the part of a flower shown.

_____

39. Why are barbers in saloons advised to spray cutting machines with spirit before cutting the customer's hair?

_____

40. Why is it necessary to have dustbins in classrooms?

_____

Section B (60 marks)

41. Okoth had the following signs: sunken eyes, dry mouth and passing out little or no urine.

(a) State one factor that could have led to the above signs.

_____

(b) What is the patient with the above signs suffering from?

_____

(c) How can the problem given in (b) above be solved?
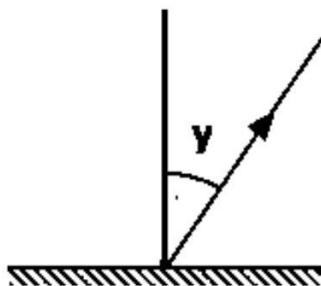

(i) _____

(ii) _____

42(a) What is drug abuse?

_____

(b) Apart from alcohol and cocaine, name one other commonly abused drug.

_____

(c) Give one factor that can make a person start using drugs.

_____

4

(d)   State one effect of drug abuse to an individual.

_____

43.   The diagram shows reflection on a mirror. Use it to answer question 43.

(a)   Complete the ray of light on the diagram above.

(b)   Name angle marked y.

_____

(c)   State one law of reflection.

_____

(d)   Why is the reflection shown in the diagram considered to be regular?

_____

44(a)   Why is mono cropping not a good farming practice?

_____

(b).   What advise can you give to a farmer who practises mono cropping?

_____

(c)   Give any two problems faced by crop farmers in Uganda.

(i)   _____

(ii)   _____

45(a)   What is a ball and socket joint?

_____

(b)   Give one part of the body where a ball and socket joint is located.

_____

(c)   How is synovial fluid important in a joint?

_____

(d)   State one injury that can occur at a joint.

_____

46(a)   What is soil erosion?
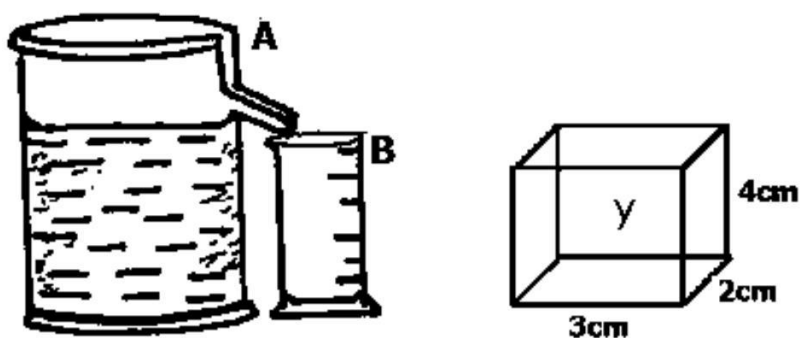

_____

(b)   Give any two causes of soil erosion.

(i)   _____

(ii)   _____

(c)   How can soil erosion be controlled in a school compound?

_____

47.   The diagram below shows an experiment which was carried out by a P.5

class. Study it carefully and use it to answer questions about it.

(a)   What was the experiment about?

_____

(b)   What will be the volume of water collected in B if the object y is fully immersed in the can A? (2 marks)

_____

(c)   Give a reason for your answer in B above.

_____

48(a) Frogs spend most of their adult life in water. Why are they able to survive on land?

_____

(b)   To which group of vertebrates do frogs belong?

_____

(c)   Why do frogs have long hind legs?

_____

(d)   State one way in which frogs are similar to birds.

_____

49.   Match items in list A to those in B correctly.

       A   B

       Anemometer   measures humidity.

       Hydrometer   measures air pressure.

       Hygrometer   measures speed of wind.

   Barometer   measures density of liquids.

(a)   Anemometer _____

(b)   Hydrometer _____

(c)   Hygrometer _____

(d)   Barometer _____

50.   The diagram below is of a grain. Use it to answer the questions that
       follow.

(a)   Name part X.

       _____

(b)   How is part y useful during seed germination?

       _____

(c)   Why is the above grain considered as a fruit?

       _____

(d)   What class of food is such a grain rich in?

       _____

51(a) Name one component of blood.

       _____

(b)   State the function of the component named in (a) above.

       _____

(c)   State the deficiency disease related to blood.

       _____

(d)   Mention the organ that pumps blood in the body.

_____

52.   Complete the table below correctly.

Age	Disease	Vaccine	Site
At birth	_____	BCG vaccine	Right upper arm
	Whooping cough	DPT vaccine	Left upper thigh
At birth	Polio 0	_____	mouth
9 months	Measles	Measles vaccine	_____

53.   The diagram below is of an electric circuit. Study it and use it to answer
       questions about it.
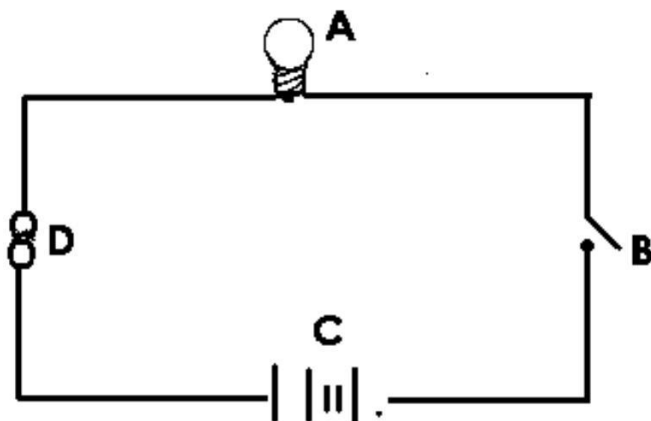

(a)   Name part marked B.

_____

(b)   What happens to part A when B is closed?

_____

(c)   Give a reason for your answer in (b) above.

_____

(d)   How is part D useful in the circuit?

_____

54(a) What is insemination?

_____

8

(b)   How can a farmer determine that a cow is ready for insemination?

_____

(c)   Give one reason why some cattle farmers prefer using artificial insemination.

_____

(d)   State one danger of nature insemination.

_____

55(a) At what age is weaning recommended in babies?

_____

(b)   Why should weaning be done at the age stated in (a) above?

_____

(c)   State one food suitable for weaning babies.

_____

(d)   Why are weaning babies considered vulnerable?

_____
