TOPIC: THE INDIAN OCEAN TRADE AND SLAVERY/SLAVE TRADE IN EAST AFRICA

TERM: ONE

Competency: *By the end of this topic a learner should be able to give reasons why people carry out modern slave trade and solutions to the modern slave trade in East Africa*

An elder was discussing with his older son, about slavery and the Indian Ocean Trade and how he suffered during that time. He said that outsiders had invaded Africa and the people could not run anywhere. There was the Khartoumers' Trade, the Indian Ocean Trade and Long-Distance Trade, just in East Africa alone, all of them trading human beings. In West Africa, there was the Triangular Slave Trade that took African slaves to South America. The son got concerned and told the father that even today, the African youth are faced with a similar challenge, but this time they are taken willingly and paid low wages, all over Asia and Europe.

Modern day slavery: Many Africans who go overseas for work end up being treated like slaves.

Task

Write an **article** that can be published in the newspapers, sensitizing the general public about the reasons for the emergence of modern slave trade, and also suggest possible solutions that can be used to end modern-day slavery in East Africa.
